

# TRAVEL BUG MISSION CARDS:

These fillable, printable card forms could help protect your bug from being impulsively taken by folks who may not be able to help your TB on it's way. No guarantee, but it could improve the odds! :)

Directions:

1. Fill it out using either the current version of Acrobat Reader or Acrobat (full version).
2. Print the filled-out card. (Note: If you use just Reader, you can print what you had filled out, but after you print and then close the PDF, what you had typed will not be saved.)
3. Cut on the dotted line.
4. If you choose a two-sided card, fold your mission card in half after trimming.
5. Call your local photocopy or office supply store and find out if they offer plastic lamination. (In many parts of the USA for instance, Kinkos Copies offers this service.) Travel there and have them turn your work into a plastic, laminated card.
6. Attach your new mission card to your Travel Bug! :-)
